The information below is taken straight from the SWANA website under safety resources/safety quick links.

**Material recovery facilities** can be a dangerous place for both workers and customers.

1. Follow lockout/tagout always!
2. Do not walk on conveyors
3. Beware of heights
4. Bale Safety — Never stack more than 4 high or stand near
5. Maintain a safe distance from moving equipment

**SWANA** wants you to go home to your family every day, safely. So, of course, never use a cell phone or text while operating machinery or working in a material recovery facility, and always wear proper personal protective equipment. Also, follow all fire prevention rules, and never smoke outside of designated areas.

**Landfills** can be a dangerous place for both workers and customers.

1. Proper PPE is a MUST!
2. Are you the right person for the task?
4. Heavy equipment has the right of way.
5. No Scavenging.

**SWANA** wants you to go home to your family every day, safely. So, of course, never use a cell phone or text while working at the landfill.
